## Plantronics Preferred Headset Provider for Avaya™

Plantronics has been named Avaya's preferred headset provider to bring unparalleled audio quality, reliability and ease-of-use to enterprise business users. Plantronics and Avaya have a 40-year history as technology and business partners.

### Official Announcement: Plantronics Named Preferred Headset Provider for Avaya™

As part of the expanded relationship, Avaya-branded headsets manufactured by Plantronics will carry the Plantronics logo and product name. Plantronics-branded headsets designed for Avaya can now be purchased through Plantronics Authorized Partners such as The Headset Team.

Plantronics is the only Platinum-level headset manufacturer in the Avaya DevConnect program. The Avaya DevConnect program promotes the development, compliance-testing and co-marketing of innovate third-party products that are compatible with standards-based Avaya solutions.

The broad Plantronics portfolio of headsets are Avaya-certified and are the only headsets that provide immediate plug-and-play connectivity and advanced call control functionality with Avaya solutions, such as Avaya one-X Communicator™.

## Avaya/Plantronics Transition Resources

If you would like help in matching your Avaya telephone and Plantronics headset contact one of our Plantronics specialists at 877-848-2497 or email us at [support@theheadsetteam.com](mailto:support@theheadsetteam.com).

## Plantronics M100 Dual Microphone Bluetooth Headset Now Orderable

The Plantronics M100™ Bluetooth® Headset is an ultra-slim, lightweight headset that features advanced technology to deliver clear and natural audio. The M100 combines dual-microphones, wind-noise reduction and Digital Signal Processing (DSP) technology for an enhanced communication experience on both sides of the conversation.

- Multipoint technology pairs one headset to two Bluetooth devices.
- Battery that provides up to six hours of talk-time and 10 days of stand-by life.
- At only 9 grams, the Plantronics M100 is lightweight and comfortable for extended wearing.
- Soft gel ear tips, in three different sizes, together with an optional ear loop provide multiple wearing options for a perfect fit.
